

# SLAB WORKSHOP SUPPLY LIST

---

This is a focused workshop on the Slab Technique from *Sunday Morning Quilts*, my book co-authored with Amanda Jean Nyberg. Slabs are what refer to as the “fabric” made from joining scraps together. It is an improvisational piecing technique that results in unique slabs of fabric that can be used in many ways. The class includes detailed instruction on making a slab. Students will then work to make additional slabs, practicing the technique and working towards assembling a quilt top.

## Supply List:

Scraps or stash in 1-3 colours. At least 5 different fabrics in each colour.  
Additional colours welcome.

Alternatively, you could bring themed or single fabric line scraps.

\*You will need approximately the equivalent of a fat quarter in scraps to make one slab. More scraps or fabric mean more variety and more slabs.

Sewing machine

Scissors, rotary cutter, 12 1/2" square ruler or larger, and cutting mat

Neutral or matching thread

Digital camera or value finder tool (not required, but helpful)

*Sunday Morning Quilts* (recommended)

Sense of adventure!

Chocolate (Optional)
